

# Colibri

## Digital voice recorder

*Colibri excels other models through its attractive shape of standard Credit Card!  
The unique appearance and sizes of the Recorder enables to convenient placing it into the wallet or cards holder.*

## Opportunities and advantages

Colibri, manufactured in the form of a thin rectangular plate, is reliable and easy to operate. Control and indication of the Recorder's modes are carried out using two hole-buttons and three-color LED on the back of the device. Recorder has built-in optional band-pass filter with adjustable cutoff boundaries. Moreover, sound files of the Recorder are protected by digital signature, which makes it possible to identify whether the recorded voice information has been modified.

## Technical characteristics:

Recording format:	WAVE PCM 22kHz, Mono.

## Delivery set

- Voice Recorder with built-in software
- Reader with 2.0 USB adapter
- User manual

# Colibri-SD

## Digital Voice Recorder

*In addition to the amazing advantage - credit card size - voice recorder Colibri-SD features Stereo Mode (2 microphones) and micro SD card.*

## Opportunities and advantages

Credit card sized recorder Colibri-SD distinguishes high microphones sensitivity, which enables top-quality recording in complicated acoustic environment, including noisy areas and street. Built-in lithium-polymer rechargeable battery allows for at least 22 hours of continuous recording or certain time periods that can be implemented with two types of timers. Control and indication of the Recorder's modes are carried out using two hole-buttons and three-color LED on the rear side of the device. Information recorded onto the Colibri-SD is protected by digital signature, which makes it possible to identify whether the recorded information has been modified. Colibri-SD is initialized with the boot file, placed on a micro SD card. Its password is encrypted with AES standard, 128 bit.

## Technical characteristics:

Dimensions	86 x 54 x 1.5 mm;
