

Short Operating Instruction for the EDIC-mini Plus Digital Recorder A9 75h/150h/300h/600h/1200h/2400h

The EDIC-mini Plus A9 digital recorder is a professional device that provides high quality voice recording on to a built-in flash memory. Recorded messages can be played back with headphones and saved as standard audio files on to a computer hard drive. The USB 2.0 interface allows high speed data exchange between the recorder and the computer. The recorder can be used for audio recording and as a flash drive for saving files of any formats.

The recorder has:

- Voice Activation System that allows to compress pauses
- Built-in real time clock
- Supplied Software (available on the recorder's built-in flash memory) allows:
 - To save recorded messages on a computer hard drive as standard audio files
 - When saving recordings on a computer hard drive, to restore pauses that were compressed

- To set the recorder's parameters
- To administrate the recorder's operating
- To renew the recorder's software

For the recorder's power supply use the Li-Pol rechargeable battery.

Technical Characteristics

- Rechargeable battery life: 230 hours
- Digits in the models' names show the built-in flash memory capacity
(A9-150h/300h/600h/1200h/2400h):
 - 150h - 8,960 min (1Gb);
 - 300h - 17,920 min (2Gb);
 - 600h - 35,840 min (4Gb);
 - 1200h - 71,680 min (8Gb);
 - 2400h - 143,360 min (16 Gb)
- (2 bit ADPCM, sampling rate 8 kHz, 16 kbit/sec)
- Data exchange speed: 5.5 Mb/sec
- Temperature range: 0-50 °C
- Frequency band on computer: 100-6,000Hz; in headphones: 100-3,800Hz
- Sound/noise ratio: -72 Db
- Built-in microphone operating distance: 7-9m
- Amount of recording profiles: 8
- Possibility to delete any recording
- Built-in real time clock, VAS
- Flash memory's shelf life: 10 years
- Period of time needed for rechargeable battery's charge: 3 hours
- Rechargeable battery: Li-Pol.

How to Turn the Recorder On and Test It Quickly

Recording

Press the Rec button twice (two times for a second). After the two LEDs flash shortly, the recorder will start recording and the red LED will flash. To stop recording, press the Rec button twice (two times for a second).

Playing the recordings back with the help of headphones

Connect the headphones to the headphones' connector (see Figure1). To play the recording back, press the Play button twice (two times for a second). After the two LEDs flash shortly, the recorder will start playing the recording back and the green LED will flash. To stop playing back, press the Rec and Play buttons simultaneously.

How to Read the Operating Instruction

Connect the recorder to the computer USB 2.0 port using the shipped USB cable. Keep the middle button on the recorder's case pressed until "USB 2.0 active" appears on the screen. After this, a removable drive will appear in the system. Open it. With a double click open the Operating Instruction file.

Charging the Rechargeable Battery

Connect the recorder to the computer USB port using the shipped USB cable. The yellow LED will flash. The duration its flashing is inversely proportional to rechargeable battery's charge (the longer the flash , the lower the charge). When charging is over, the LED will turn off.

Box Contents

- Recorder
- Headphones
- USB cable
- Instructions
- Warranty coupon

Optional Accessories

- Remote control unit with external microphone

*The full version of the Operating Instruction is in the build-in memory of the recorder. You can also find it at our website www.ts-market.com

Designed and manufactured by the
Telesystems Ltd.

The Manufactory Warranty Coupon

The manufacturer undertakes warranty repair liabilities for 1 year from the date of purchase, but no longer than 2 years from the date of manufacture of the product (warranty does not cover batteries). Paid repair is provided within recorder's operation lifetime (5 years). The manufacturer reserves the right to refuse in repair after the expiration of recorder operation life.

This warranty is voided if the recorder is:

- improperly used
- mechanically damaged
- received without supplier warranty tag on this document

All questions regarding product exchange and return must be solved with the seller's company according to Protection of Consumers Law.
