- Digits in the models' names show the built-in flash memory capacity (A31-300h/600h/1200h):
 - 300h – 17920 min (2Gb);
 - 600h – 35840 min (4Gb);
 - 1200h – 71680 min (8Gb).
- (2 bit ADPCM, sampling rate 8 kHz);
- Data exchange speed: 0.7 Mb/sec
- Temperature range: 0-40°C;
- Bandwidth while recording: 100-10,000 Hz;
- Sound/noise ratio: -72 Db;
- Built-in microphone operating distance: 7-9 m;
- Flash memory's shelf life: not less than 10 years;
- Period of time needed to charge rechargeable battery: 3 hours;
- Rechargeable battery: 75 mA/h, Li-Pol;
- Dimensions: 29x15x12mm;
- Weight: not more than 6,5 gram.

Functional test

Trial record. Press the Record button and keep it pressed for about two seconds. The recorder's LED will flash 5 times. To stop recording, keep the Rec button pressed for 2 seconds. When the recorder stops recording, the LED will flash once. The duration of the flashes can be different depending on the recorder's memory size. When recording, the sequences of LED flashes show the level of charge of the battery and memory capacity (you can find a more detailed description in the Operating Instruction).

You can listen to the recording only after uploading the recordings to the computer's hard drive by means of the program RecManager (you will find it on the applied software CD).

Charging the Recorder

Connect the recorder to a computer USB port using the shipped USB cable. The recorder will start charging automatically. While charging, the recorder's LED flashes gradually with a 5 seconds interval. After the rechargeable battery is fully charged, the LED will flash continuously.

Box Contents

- Voice recorder
- USB cable
- Software CD or Flash drive
- Instructions
- Warranty Coupon

Additional Accessories

- External microphone with compressor
